YURA CORPORATION – RACA

Mr. Lukas Nam

Dear Mr. Nam,

We congratulate you on successful purchase of company „Zastava elektro“ and the start of work of Yura company in Serbia. The work of your company is very important for the municipality of Raca and the region and that is why we are ready to help you, so that you could start to work as soon as possible and stay in Serbia.

As you are an experienced manager, you surely know that for good functioning of a company it is important that relations between the employees and management are settled. The best way to achieve that is through the action of Union within each company.

Your statements in the media and your addressing to the employees of „Zastava elektro“, where you said that you did not want Union in your company, have caused much disturbance in Serbian public and especially in union movement of Serbia and they were the topic of discussions in upmost institutions of Association of independent unions of Serbia..

You probably know that the Constitution of the Republic of Serbia and the Labour Law in the Republic of Serbia guarantee to employees the right to organize unions. The tradition of union organization in Serbia dates from 19th century and our region had a prominent role in the struggle for rights of the workers.

That is why we invite you not to disturb the forming of the Union in your company. We also wish to invite you to start dialogue on beginning of work of Union in your company and we suggest that this dialogue be led when your obligations allow you, in Kragujevac, in the Union House.

Best regards,

Association of independent unions of Kragujevac  
for municipality of Raca

Trustee

Tomislav Veljkovic

Association of independent unions of Kragujevac  
President

Jugoslav Ristic
